Learn with Me!

• Frost Observation

Bundle up and go for a walk with your child. Take plastic magnifiers with you. Invite your child to look carefully at any ice on fences, tree trunks, etc. Talk about what you see together. Has your child observed frost this closely before?

• Snow Pretend Play

Enjoy a snowy day with your child. Gather toy kitchen utensils and bowls. Collect snow together in a sensory bin or large container. Use the kitchen utensils to play with the snow. You might pretend to make snow cones or other cold treats. Be sure to wear warm gloves!

My Project: Healthy Foods and Treats

When I bring this project home, we can:

- Talk about our favorite healthy foods and treats.
- Name the food items on my project.
- Find toy foods to play with and sort them by type.

Graphic is intended to show sample of project. Materials may be substituted or used differently.

Snowflakes

Sung to "Twinkle, Twinkle, Little Star"

Round and round the snowflakes swirl.
Snowflakes, snowflakes falling down,
Gently falling to the ground.
